Signed By: michael.k.sams@uscg.mil

All,

Attached is most recent draft RRF for ESF-10 for the USCG. I recommend we discuss Brian Fisher's below proposed changes before proceeding.

The USCG is poised to perform the ESF-10 mission at the request of the State of Texas; however, below requested edits create perceived uncertainty for the USCG. We must ensure we don't stray from the ESF-10 mission (removal of oil and hazardous material pollutants) into the ESF-3 debris removal mission.

The USCG requests clarification to ensure that we're being requested to "remove pollutants and hazardous materials from vehicles, intermodal containers and vessels on navigable waterways or adjoining shorelines. Upon removal of associated pollutants and hazardous materials from sunken vessels on navigable waterways or adjoining shorelines, these vessels may be removed to a predetermined staging area prior to future debris removal by an entity other than the USCG."

I recommend an updated RRF be drafted and distributed to all on this email distribution list prior to moving forward.

V/r,

Mike Sams

Subject: [Non-DoD Source] Re: DRAFT RRF for ESF10

In addition to FEMA's suggested language, please include the following language provided by TGLO:

Please add the following:

Vehicles, intermodal containers and vessels (section II) Placement of vessels removed of pollutants to predetermined staging area (Section VII)

7. Statement of Work:

As directed by and in coordination with FEMA, US Coast Guard (USCG) will provide oil and hazardous material field response in support of response operations. Field response activities may include the following: providing specialized expertise, conducting damage assessment of oil/hazmat waste impact via air and/or water; contractor oversight; evaluating hazards; and/or response, removal, or disposal of: actual and potential oil discharges, and releases of hazardous materials, pollutants, and contaminants, and remove pollutants from vessels. USCG will deploy resources for the State of Texas. USCG is responsible for providing personnel, equipment and logistical support as necessary to accomplish the mission.

All purchases and expenditures must be coordinated with FEMA. Prior approval, from the Federal Approving Official (FAO), is necessary to ensure reimbursement. Agencies will be reimbursed for all eligible expenses pursuant to 44 CFR 206.8, "Reimbursement of Other Federal Agencies."

Mission Assignment Task Orders (MATOs) may be issued for specific personnel, requirements, locations, dates, and duration of assignments. The mission-assigned agency is responsible for ensuring that all activity is properly authorized, goods are received, services are provided, and that costs are reasonable and supported by documentation maintained by the respective agencies. This MA is in effect for 30-days (August 23, 2017 to September 21, 2017) and may be amended accordingly.

8. Estimated Completed Date: 09/21/2017

9. Estimated Cost: \$20,000,000.00
